

M. HUZAIFA BHATTI

FULL STACK & MOBILE APPLICATION DEVELOPER

Lahore, Pakistan • +92 317 8495506 • bhattihuzaifa3@gmail.com • linkedin.com/in/mhrbhatti • github.com/mhrbhatti

PROFESSIONAL SUMMARY

Full Stack & Mobile Application Developer with hands-on experience engineering production Flutter applications, MERN stack web platforms, and RESTful microservices. Proven track record of architecting MongoDB schemas, integrating Firebase backends, and delivering conversion-driven web products. BSCS student proficient in Agile collaboration, state management, and modern CI/CD practices.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Dart, Java, C++, C, SQL, HTML5, CSS3

Frontend & Mobile: Flutter, React.js, Redux, Context API, Tailwind CSS, Responsive Design, Material UI

Backend & Databases: Node.js, Express.js, RESTful APIs, MongoDB, Mongoose, Firebase (Auth, Firestore, Storage), SQLite

Developer Tools: Git, GitHub, VS Code, Android Studio, Figma, Postman, Agile/Scrum Methodologies

Core Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), On-Page SEO, Technical Copywriting

PROFESSIONAL EXPERIENCE

Full Stack Developer — SpatioLense

Jan 2026 – Present

Remote

- Engineered modular mobile and web features using Flutter and React, improving application responsiveness across 10+ target screen sizes.
- Designed and deployed 12+ RESTful API endpoints with Node.js and Express to serve healthcare and tracking data to frontend consumers.
- Modeled persistent MongoDB document schemas and executed query optimizations that reduced data retrieval latency for core user workflows.
- Contributed to a production pregnancy-tracking application, authoring core UI modules and implementing secure patient-data tracking workflows.
- Collaborated with cross-functional teams in an Agile environment using Git for branch management, code reviews, and issue tracking.

Web Developer & SEO Specialist — ByteStack Software Solutions

2025 – Present

Lahore, Pakistan

- Built the agency's web platform from scratch using modern HTML5, CSS3, and JavaScript, achieving a 95+ Google PageSpeed score.
- Authored conversion copy and structured on-page SEO architectures (meta tags, H1–H3 hierarchy, alt text), resulting in a 30% increase in organic discovery.
- Optimized site navigation and keyword targeting across high-intent service pages to streamline client lead generation.

Content Writing Intern — Haachi Technologies

Jun 2024 – Aug 2024

Remote

- Researched and published SEO-optimized technical articles, increasing organic search impressions across key content clusters.

IT Technician — Jers Consultancy (Pvt) Ltd

2024

Lahore, Pakistan

- Managed office network architecture, hardware diagnostics, and automated system backups, maintaining 99% operational uptime.

PROJECTS

Nine – Production Pregnancy Tracking Platform | *Production Application*

Tech Stack: Flutter, Node.js, Express, MongoDB, Firebase

- Implemented real-time health metric tracking modules and dynamic timeline UIs using Flutter.
- Integrated Node.js REST APIs with MongoDB to store and retrieve time-sensitive user records securely.

TestCraft – Automated Assessment & Question Bank Platform | *Full Stack Project*

Tech Stack: React, Node.js, Express, MongoDB

- Developed an end-to-end quiz generation platform featuring custom question bank categorization and automated scoring logic.
- Designed relational MongoDB data models for scalable student result tracking and automated assessment reporting.

Budgetly – Personal Finance & Expense Tracker | *MERN Stack Project*

Tech Stack: React, Node.js, Express, MongoDB, Tailwind CSS

- Created an interactive financial management dashboard featuring dynamic expense categorization and custom PDF exports.
- Implemented persistent theme toggling (Dark/Light mode) and responsive state management for seamless cross-device usage.

InstaClone – Feature-Rich Android Social Application | *Mobile Application*

Tech Stack: Java, Android Studio, Firebase Cloud Storage, Firestore

- Architected an Android social application supporting user authentication, real-time activity feeds, and follow/unfollow functionality.
- Handled media uploading pipelines with client-side image compression before pushing assets to Firebase Cloud Storage.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

2023 – Present

University of Central Punjab (UCP), Lahore — 6th Semester

Intermediate in Computer Science (ICS)

2021 – 2023

Government College University (GCU), Lahore

CERTIFICATIONS

- Web Designing — FSDS, GCU Lahore
- Amazon Virtual Assistant — FSDS, GCU Lahore
- MicroPython Workshop — IET On Campus, UET Lahore
